# 11 Restaurants With the Best Panoramic Views in Mallorca

## Sushi Bar at Hotel Sant Francesc Singular

With so much dramatic cliff-top coastline and its majestic mountain range – coupled with a particularly vibrant dining scene – it’s no surprise that Mallorca boasts some of the best places to accompany your meal with some seriously spectacular views. Read on for some of the top restaurants on the island to soak up those superb sea and sierra panoramas.

Set atop the award-winning five-star boutique Hotel Sant Francesc Singular is an impressive al fresco terrace where both guests and residents nibble on sushi while taking in the surrounding city panorama. Though not grand mountain or sweeping sea views, visitors can peer over the scenic surrounding rooftops, neighbouring medieval church, and out to Palma’s majestic sandstone Cathedral. Accompany the views with a top-notch selection of Japanese delicacies from the Sushi bar, or a burger flame-grilled to perfection.
