The Best Hotels in Palma for a Short City Break

Palma old city walls at dusk

The capital of not only Mallorca but the whole of the Balearic Islands, Palma is a genuinely enchanting destination that marries an abundance of old-world charm with hip contemporary buzz, all drenched in a healthy dose of Mediterranean sunshine. But with so many outstanding hotels, picking somewhere to stay for a short visit to the city can be a challenge, so to help you out we've whittled it down to a selection of the best.

Hotel Sant Francesc

Set in a quieter side of Palma's richly historic Old Town, the Hotel Sant Francesc oozes effortless style from its beautiful period-chic reception to its gorgeous rooftop terrace overlooking the eponymous church. Most of the original neoclassical features of this 19th-century mansion have been meticulously restored, but with a light contemporary touch that makes for achingly eye-pleasing results. But it's not all aesthetics, with an outstanding fine dining restaurant, high-tech in-room amenities, and a rooftop swimming pool with a poolside sushi bar that puts the icing on one very luxurious cake.
